Dr. S. G. Bradley
Department of Bacteriology
University of Minnesota
Minneapolis 14, Minnesota

Dear Dr. Bradley:

The New York Academy of Sciences will sponsor a one-day Conference devoted to the "Genetics of Streptomyces and Other Antibiotic-Producing Microorganisms," to be held in New York on January 6, 1959. I wonder if you would be able to participate by presenting a paper on "Heterokaryosis in Streptomyces" (together with Dr. Lederberg). A separate discussion of the genetics of S. coelicolor would also be appropriate. I would appreciate learning your decision, together with any comments on the scope of your contribution and suggestions about other speakers.

With the best personal regards.

Sincerely yours,

Wacław Szybalski

W&AM

P.S. I shall be away, in Europe, between July 10 and September 1, but mail will be forwarded to me.
